Black Rifle Coffee Company

Black Rifle Coffee Company's CEO Mat Best, had not only asked for me to build his Gaming PC, but also spent time with some of the kids in the Garage LAN to play COD with and be a positive influence. Mat Best also took time out of his busy schedule to talk to me about how the Garage LAN could be brought out into the commercial world and out of my house. I was also given permission, on behalf of Black Rifle Coffee Company to distribute bags of coffee to the brave officers in the Sacramento, CA state capital that were defending against rioters. CA State Senator Shannon Grove had previously donated coffee for the Officers and escorted myself into the Capital for the distribution of which we had a full SWAT Police Escort out of the capital.

THANK YOU So Much For Your Unselfishness and Awesomeness!
